| • Which occur first symptoms or positive test? (Onset Date)  
• Count back 48 hours from the onset date  
• This is date we will contact trace back to.  
• Notify Dr. Weikart  
• Positive case will quarantine for 10 days from onset of symptoms or positive test date. (Enter in reporting tool & send letter) | • Speak to all teachers and follow student’s path to list all stakeholders who were within 6 feet for more than 15 mins in a 24 hr period during contact trace period | • Both wearing masks?  
• Close Contact Vaccinated?  
• Close contact had COVID-19 within past 90 days?  
If Yes, no quarantine is required if asymptomatic  
Send appropriate letter home and enter in reporting tool | • If the stakeholder has symptoms, they will quarantine for 14 days  
• If asymptomatic,  
• Return on day 8 if test negative on day 5 or after of close contact  
• Return on Day 11 if no test and no symptoms  
• Enter info in reporting tool and send letter. | • Send non-close contact letter to students who were in the room but not in close contact  
• Inform staff via email  
• Follow up to ensure areas are appropriately sanitized |
Stakeholder Showing Symptoms

• For students, staff, and teachers with chronic conditions, symptom presence should represent a change from their typical health status to warrant exclusion from school.

• Occurrence of any of the symptoms below while a student, teacher, or staff member is at school suggests the person may be referred for diagnostic COVID-19 testing or evaluation. • Fever (temperature of 100.4 degrees Fahrenheit or higher) • Sore throat • Cough (for people with chronic cough due to allergies or asthma, a change in their cough from baseline) • Difficulty breathing (for people with asthma, a change from their baseline breathing) • New loss of taste or smell • Diarrhea or vomiting • New onset of severe headache, especially with a fever (Page 14 of Strong Schools Toolkit)

• If we send them home for these symptoms, they may return with a negative test; alternative diagnosis from a medical provider or 10 day exclusion from school AND they are fever free for 24 hours without use of meds. (Page 17 of Strong Schools Toolkit)
Close Contact (Asymptomatic)
